WORK EXPERIENCE

PAYTM | Software Engineer 2
March 2021 - Present | Bangalore, India
Paytm Travel

- Collaborated with cross-functional teams to build performant, scalable, and user-friendly web applications using React and other frontend technologies.
- Worked closely with UX designers to ensure the user interface and user experience meet the project's requirements.Worked on various components such as search page, offers section, payments.
- Integrated the web application in native app to make it platform agnostic, reducing application size by almost 11MB.
- Improved user interactivity by using shimmers, skeleton loaders throughout the application.Optimized web application performance by reducing page load times and minimizing network requests.
- Implemented checkout flow for the application thereby covering all the scenarios viz. banking, EMI and promo offers.
- Integrated frontend applications with backend services using RESTful APIs.
- Maintained code quality and followed best practices by using modern frontend tooling such as Webpack, Babel, and ESLint.
- Built a common Auth interceptor with auto retry mechanism for failed API calls with a retry count.
- Set up alerts via Sentry and Kibana to log and rectify user-facing issues.
- Troubleshoot and debug frontend issues and adhoc tasks as needed.
- Participated in code reviews and mentored junior developers to provide guidance on best practices and industry trends.

MATCHMOVE PAY | Software Engineer
Aug 2018 - March 2021 | Bangalore, India
 RemitSend

- Innovative remittance service platform that helps businesses save on overseas remittance vs traditional banks.
- Used chartjs library for creating interactive charts to show user activity statistics.
- Implemented mobile-view responsiveness for the website.

HEWLETT PACKARD INC | Research & Development Intern
Jan 2018 – Jul 2018 | Bangalore, India

- Implemented an 'Edge-Erasing' Algorithm for HP A3 Copier system.

SKILLS

- Proficient in **HTML5**, **CSS3**, and **JavaScript**.
- Experience with **Reactjs**, **Redux** and **Nodejs**.
- Familiarity with **Webpack**, **Expressjs**, and **Angular4+** frameworks.
- Understanding of responsive design principles.
- Understanding of **OOP** and **MVC** design.
- Familiarity with **SASS** and **PWA** architecture.
- Strong analytical and problem-solving skills.
- Experience with version control systems, such as **Git**.
- Ability to design and implement complex user interfaces.

EDUCATION

SRM UNIVERSITY
BTech in Information Technology
May 2018 | Chennai, TN, India
College of Engineering
CGPA: 9.28/10
